Windows Operating System: Win 2000 / XP / 2003 / Vista or later is required. See the web site for more specific information about details. You may email support@stratfordsoftware.com with any questions. There are no refunds, so please be sure you get all your questions answered before purchasing. We recommend that you download the free trial version (exactly the same program - fully functional – the only difference is that there is a maximum of 25 patients) and try it before you purchase.

California shipments only: We have been informed that if we send anything to you that is tangible, like a CD, it will make half of the month's support fee taxable. This is as stated in California Regulation 1502, Computers, Programs and Data Processing. This is one more reason for you to download your updates directly from our webpage. If you download, it will save you the cost of media and tax.
