

STRATFORD

Volume 29.07

Healthcare EDI and Practice Management Software

July 2005

Do you now transmit claims to the ProxyMed clearinghouse? We have received notice that ProxyMed is canceling our contract and will no longer process claims to Stratford users at no charge as they have in the past.

stratford notes

As a result, Stratford has contracted with a clearinghouse that will process claims at no charge (no free government claims of course). We recommend you immediately change to CareVU clearinghouse before August 1. Let Stratford support know you want to change and we will expedite the process. (it is very simple). Remember, you must change before August 1 as Stratford can no longer support transmissions to ProxyMed. *See the note on Page 2.*

If you have a free Paypal account, you can pay us with Discover, American Express, echeck and MasterCard, Visa, and Paypal (of course) ... Almost anything you can think of. We have the information on our web site. Just send the payment to paypal@stratfordsoftware.com

If you would like to take a look at the **Stratford windows version**, we can send you an id and password that will allow you to download the software from our web site at no charge. The size of the download file is about 108 megabytes so we don't recommend it for slow (modem) Internet connections. You can get the new program on CD for a small media charge, usually about \$2 (plus tax in Ca).

Stratford has almost **5,500** licensed users

Stratford's software is now officially HIPAA compliant.

You can auto-pay your bill by having credit card information on file. If you pay for a full year in advance, you receive the 11th & 12th months at no charge. You will continue to get a fully itemized monthly statement and newsletter.

We have the new 'tamper resistant prescription forms. These are for schedule II meds. If you are interested, please contact support.

Pre-paid support customers may use email for the fastest response:
support@stratfordsoftware.com

You can find Stratford's Internet server at this address:
<http://www.stratfordsoftware.com/>

Training Classes ***SHS Software Basic Training***

In the Stratford Classroom
by Appointment only \$275

Call for class availability at least three days in advance. On-site training with a certified Stratford trainer may be available (*by appointment only*). The cost is \$250. Telephone training is also available (*by appointment only*).

FROM THE EDI CORNER

Stratford is fully compliant with the new HIPAA federal law as it applies to software vendors like us. We are ready to test our ANSI X.12 version 4010-A1 format with any payer. •

Stratford is now approved for v4010-A1 by New York Department of Health—Medicaid, Mississippi Medicare Part B -BCBSAL, United Government Services UGS, DMERC, Wisconsin Medicaid -Wimcaid, Premera Blue Cross Blue Shield Medicaid & Medicare, Mass Health & Value Options, Medi-Cal / Central Coast Alliance—CA / Santa Cruz CA, Florida Medicare Part A & B, Railroad Medicare, Regence Blue Cross Blue Shield/THIN and Upstate New York. We have passed all the edits for Florida Medicare—but the client must send real data for final approval.

California Medi-Cal, Riverbend Medicare, Blue Shield of California, New England NHIC Medicare, California NHIC Medicare, Blue Cross CA, Noridian, Sutter Connect – Sacramento CA. All our clients who transmit to Blue Cross of California are now HIPAA compliant.

We have recently added another high-speed internet data line. You should consider receiv-

ing your updates via internet. Why wait 2-7 days and pay for postage and media. Increase your cash flow.

ProxyMed has notified us that they are not going to continue the present no-fee agreement with our customers. They are going to start charging. We have contracted with a new clearinghouse: **CareVU** and you can download their 2 sign-up forms from our web site. Check the ‘download’ page in the EDI section—**CareVU** is in red type. Call Stratford support and start transmitting to **CareVU** before August 1, 2005. •

Note: Transmitting Medicare Claims. Medicare has not approved Internet transmission yet. It is good that you are getting or already have a broadband (DSL/Cable modem) connection. **Do not let your tech person remove your modem.** You still must have a dial-up line. •

Your clearinghouse may have setup fees and/or charge you for EDI claims, but Stratford does not. •

MORE SUPPORT NOTES

Fees for supplies, handling and shipping. If we send anything to you that is tangible, like a CD, it will make the entire month’s support taxable as well as the CD. This is California regulation 1502 (conflicts with 1501). We do not agree with this, but we are forced to collect the tax. This only applies to California shipments. If you download your updates, you will save the cost of media and the tax. •

EDI “per-claim” charges

Stratford does not have any “per-claim” or other charges related to transmitting claims to Medicare or any other carrier. We only charge (optional) for providing software support.

QUESTIONS AND ANSWERS

Q: Why is it so difficult to change the password? I want to change weekly and I don't want to mess with all that 'admin' stuff.

A: It is easy. Simply login with the password you wish to change. From the main menu select #8 then #10.

Q: I have never had any problems with my computer. Why should I make a backup?

A: Due to the very nature of database applications, user data can and will at some point become corrupt. Small problems are typically corrected when you run the reorganization program. We suggest you run the reorganization program before you backup your software. Another good reason to backup is: you never know when your small problems will be come BIG unfixable problems. Things like not exiting the program correctly, power loss while Stratford is running, and other hardware problems may cause major database problems that are more often than not unfixable. Unfixable means that not even Stratford Database Administrators can recover your data. You will have to start from scratch if you do not have a valid backup to restore. •

Q: How do I backup my Stratford software? What do you recommend?

A: Due to the growing number of different computer configurations out there, it is impossible to give one answer for this question. A general recommendation for our clients is to backup on a CDROM burner at least daily. CDs are cheap. Keep them as long as you have room for them. The more frequently you backup, the less re-entry you will have to do. For more information on how to use your backup equipment please contact your hardware technician.

Stratford will run your Stratford software related classified ad in our monthly newsletter *free*, upon SHS approval! Fax your ad to us at (650) 692-1073.

NOTE: Periodically check your backups! It's your responsibility to verify that your files are correctly backed up. If possible, restore the files to a different computer.

NOTE: if you use a write-once CD, it could be acceptable as a legal document if you use your Stratford program to create an electronic medical record. •

Q: What folder do I need to backup?

A: Dos version users need to backup the entire \130 folder. Windows version users need to backup the entire \Stratford\ssiwin folder.

Q: What are some recent changed/added features?

A: You can change the order of a patients insurance—example: change Blue Cross from primary to secondary. Go to the patient insurance screen. Right-click on the textbox at the bottom. A small menu comes up with 'mover bars' that allow you to change the order.

There are several new print options. You can print the medical record with a new button on the lookup screen. This uses our report generator specifically designed for laser printers. You can use nice fonts, etc. We will expand this into other programs as we get client requests. Eventually, we may make all our reports available in this new format. •

SOFTWARE SUPPORT NOTES

- 1 Email requests for support get **Priority Service**.
- 2 If you send an Email or fax with a description of the problem, your call is given priority over other Emails and faxes.
- 3 Do not call more than one time. The second call places your first call at the bottom of our callback list.

We can receive many support requests in the first few hours each day. It usually is not possible for us to have a technical support person waiting to take your call. If you just call and leave the message "please call", your call is placed at the bottom of the callback list. We must do everything we can to avoid "phone-tag". Hand-written faxes can be almost impossible to read, so please type them whenever possible. Include the best time to call you.

At this time we can deliver support best by email. If you check your email each day, you may find this to be easier than faxing us. We check our email constantly — at least every 5 minutes. We are putting most of our resources into email and other methods that utilize the Internet. If you have an ICQ number, we can support it. Let us know.

We are interested in hearing from people who would like to receive support by Internet — email/ICQ, etc.

Stratford  will pay you \$100 for you refer who each person* purchases Stratford Software at full price (\$895). Simply fax or write to give us your referral. **We must receive the referral notice in advance of the sale. We cannot pay for a referral if you notify us after the sale.**

*Subject to restrictions
