Volume 35.05

Healthcare EDI and Practice Management Software

May 2011

Medicare will no longer accept dial-up connections to CEDI. They may stop accepting part B claims by dial up next. We recommend you sign up with a clearinghouse that will accept all your claims.

stratford notes

Start transmitting your prescriptions now. There is no additional cost. There is no additional cost. Stratford is certified by SureScripts now so you can transmit your prescriptions. The manual has instructions or you can email/call for help. A billing service that uses Stratford Software can offer ePrescriptions to their clients at no cost from Stratford. •

You must transmit your claims with the **ANSI v5010 transaction sets** beginning 01/01/2012. You must begin using **ICD-10 codes** on 10/01/2013. All Stratford clients are ready to test with any payer now. **We include the entire ICD-10 list with our updates with frequent updates now. Please don't wait.** We will do what we can to help, but you have a lot of work to do. We are including a conversion of ICD9 to ICD10—all documented in the manual now. •

The best, fastest way to get support is by email. Our programmers routinely monitor the emails. A written record is created which can result in a better program and better support for you. •

Integrated **EHR and eRx.** You can print the **Electronic Health Record** using your laser printer for your paper chart/faxing, etc. You can see the patient's allergies and prescriptions on the same screen. •

You can auto-pay your bill by having credit card information on file. Pay online anytime. Just click 'online payment' on our main web site. You will receive an email con-

inside this issue

Stratford has nearly **6,400** licensed users

firmation. If you fax your credit card information we accept **Visa, Mastercard, Discover** and **AmericanExpress.** •

If you are ordering supplies, click the 'Download' or 'Orders' button on the web site. You can download the price list and the order form any day, any time. The web site has the current prices. **Our fulfillment warehouse will not ship without payment in advance.** •

You must begin using 'security' envelopes beginning January 1, 2011 in almost all states and in all states as of March 1, 2011. We have the 'security' envelopes (2 sizes) available for order now. •

Pre-paid support clients should use email for the fastest response:

support@stratfordsoftware.com

You can find Stratford's Internet server at this address:

Training Classes **Stratford Software Basic Training**

By phone
by Appointment only

Call for an appointment at least three days in advance. On-site training with a certified Stratford trainer may be available (*by appointment only*). The minimum cost is \$295 plus costs.

FROM THE EDI CORNER

Stratford is fully compliant with the HIPAA federal law as it applies to software vendors like us. We are ready to test version 5010 A1 with any payer. •

Stratford supports the GatewayEDI clearinghouse and we are happy to set you up to transmit ALL your claims—even paper claims to GatewayEDI. They transmit to MPMG, HPSM and all others major payers including ‘government’ claims. •

Stratford’s format is approved by all Medicare contractors, California Denti-cal, CEDI (DMERC claims), Anthem BC, Noridian BCBS, Availity, New York Department of Health—Medicaid, Mississippi Medicare Part B -BCBSAL, NHIC Medicare: (New England, North and South California), United Government Services UGS, Wisconsin Medicaid – Wimcaid, Premera Blue Cross Blue Shield Medicaid & Medicare, Sante Health Systems, Mid Rogue IPA, THIN, Rhode Island BCBS, Mass Health & Value Options, Medi-Cal / Central Coast Alliance—CA / Santa Cruz CA, Railroad Medicare, Regence Blue Cross Blue Shield/THIN and Upstate New York. California Medi-Cal, Riverbend Medicare, Blue Shield of California, Sutter Connect – Sacramento CA, Tricare. We have passed all the ed-

its for Florida Medicare Part A & B—but the client must send real data for final approval. And many others.

We have very high-speed internet data lines. You need to download your updates via internet (no charge). You should get an update at least once every 90 days. The updates will not work for you unless you have active support. We no longer create CDs and mail them because of the labor and other resources necessary.

Note: Transmitting Medicare Claims. Medicare no longer accepts CEDI dial-up connections. We recommend that you transmit all your claims to a clearinghouse like GatewayEDI. GatewayEDI will accept all your claims. They will even print and mail claims that cannot be transmitted to the payer. You can also transmit your statements and have them customized. •

Your clearinghouse may have setup fees and/or charge you for EDI claims, but Stratford does not. •

MORE SUPPORT NOTES

Fees for supplies, handling and shipping. If we send anything to you that is tangible, like a CD, it will make the entire month’s support taxable as well as the CD. This is California regulation 1502. We are forced to collect the tax. This only applies to California shipments. If you download your updates, you will save the cost of media and the tax. •

Ambulance clients: We have tested the ANSI v5010 for your EDI. There are significant changes to make your billing better. We support those changes. •

EDI “per-claim” charges

Stratford does not have any “per-claim” or other charges related to transmitting claims to Medicare or any other payer. We only charge (optional) for providing software support.

QUESTIONS AND ANSWERS

Q: *I have never had any problems with my computer. Why should I make a backup?*

A: Due to the very nature of database applications, user data can and will at some point become corrupt. Things like not exiting the program correctly, power loss while Stratford is running, and other hardware problems may cause problems that cannot be fixed. You will have to start from scratch if you do not have a valid backup to restore. •

Q: *How do I backup my Stratford software/data? What do you recommend?*

A: A general recommendation for our clients is to backup on CD-R or DVD-R at least daily. CDs are cheap and permanent. Keep them as long as you have room for them. Dos version users need to backup the entire \130 folder. Windows version users need to backup the entire \Stratford\ssiw folder.

NOTE: Periodically check your backups! It's your responsibility to verify that your files are correctly backed up. If possible, restore the files to a different computer.

NOTE: if you use a write-once CD (CD-R), it could be acceptable as a legal document if you use your Stratford program to create an electronic medical record. •

Here is how we backup. Number 1 rule: zip the data. You do not want to copy files directly to a CD/DVD. The reason is that they will automatically be changed to 'read-only'. That will cause problems for you when you restore. Use a zip program that is compatible with 'WinZIP'. Better yet, use WinZIP. DO NOT use a proprietary compression program no matter how great you think it is or what you read in the advertising. Always remember

Stratford will run your Stratford software related classified ad in our monthly newsletter *free*, upon Stratford approval! Fax your ad to us at (206) 984-3846.

that a backup is worthless if you can't restore it. You want anyone to be able to restore it. The newest version of WinZIP will allow you to encrypt your data if you want. DO NOT use tape. There is no 'standard' in tape storage no matter what you may hear. Here at Stratford, we no longer support any tape formats. We cannot help you unless you backup to CD/DVD with a 'zip-compatible' format. DO NOT backup to a hard drive. Hard drives will fail (we guarantee it) and that is the primary reason for making a backup.

Q: *I want a printed manual. How can I get it?*

A: To see the manual, press F1 anywhere in the program. To print it, select #7, #2 from the main menu. This will show the manual in 'pdf' format. If you do not have Adobe Acrobat on your computer, get it free here: www.adobe.com

If you want a 'professionally printed manual', we like the options offered by Kinko's. You can go to www.kinkos.com and select 'Online printing' then 'File, Print Fedex Kinko's'. There are 3 simple steps. Download a print driver for your computer, print the manual as above. Then select the type of binding, etc. that you would like. You can pick it up at the nearest Kinko's or have it shipped by FedEx. This costs less than 1/2 what we would have to charge if we printed and shipped it. •

SOFTWARE SUPPORT NOTES

- 1 Email requests for support get **Priority Service.**
- 2 If you send an Email with your account number and a description of the problem, your call is given priority over other Emails and faxes and telephone calls.
- 3 Do not call more than one time. The second call places your first call at the bottom of our callback list.

We can receive many support requests in the first few hours each day. It usually is not possible for us to have a technical support person waiting to take your call. If you just call and leave the message "please call", your call is placed at the bottom of the callback list. We must do everything we can to avoid "phone-tag". Hand-written faxes can be almost impossible to read, so please type them whenever possible. Include the best time to call you.

At this time we can deliver support best by email. If you check your email each day, you may find this to be easier than faxing us. We check our email constantly — at least every 2 minutes. We are putting most of our resources into email and other methods that utilize the Internet.

If you download your update instead of using the mail, you will get immediate service, lowest cost and no tax. •

Stratford will pay you \$100 for you refer who each person* purchases Stratford Software at full price (\$895). Simply fax or write to give us your referral. **We must receive the referral notice in advance of the sale. We cannot pay for a referral if you notify us after the sale.**
